

Interface Flexperte – Intergraph Smart3D for Plant

Export and Import data with the WITZENMANN Interface

Export FIN-files from S3D with WITZENMANN Custom-Command:

1. Select the relevant designed supports
2. Write the FIN-files for each support
3. Import each FIN-file to Flexperte → definition of the values, conditions and parts

Import STK-files to S3D:

1. Generate the files in Flexperte
2. Import them to Intergraph Smart3D with our Custom-Command
